

Hoist Accessories

Beucare® stock a wide selection of patient handling slings, belts and slide sheets.

Universal Sling

Available with or without head support, easily fitted and gives full body support.

Mesh Sling

General purpose sling with small toileting aperture, ideal for bathing and showering.

Toileting Sling

Quilted throughout to provide maximum comfort. Allows access to remove clothing for toileting purposes. Provided with non slip waist band.

Hammock Sling

Gives full body support. Particularly appropriate for amputee's.

Stand Aid Sling

A fully padded and shaped sling, incorporates a non-slip waist band.

All slings incorporate loop fixings which are suitable for standard spreader bars or clip fixings if required.

Slide Sheets

Enables moving patients on or off a bed, trolley or examination couch. Multi-directional glide and ultra low friction quality. Sliding transfers extremely easy to perform.

Handling Belts

A wide padded belt with four vertical handholds and three lateral handholds which allows a choice of secure grips when transferring or walking with a patient.

Established in 1992, Beucare® Medical Ltd is the UK's premier supplier of medical, nursing, janitorial, hygiene supplies and equipment to private care homes, hospitals and individuals. With over 40 years combined experience in the industry, Beucare specialises in equipping existing care establishments, as well as refurbishment projects and new builds.

With over 4000 products and three well regarded brands, including ATMO® (pressure relief mattresses and cushions), ProBed™ (electric profiling / nursing beds) and Beaulift® (patient lifting hoists). Beucare® has set the standard for the high quality, low cost supply of medical, nursing, janitorial and hygiene products.

As part of Beucare's commitment to care, there is a dedicated customer service department, which includes the servicing of care home equipment such as electric profiling nursing beds, patient lifting hoists and slings; all of which are carried out to industry standards including LOLER certification for hoists and PAT testing for electrical items.
